RUSH FOR CITY BEDS NOT ALL HARD TIMES

Stoppage of Railroad Construction Forces Many Men Here for the Winter.

PAY SPENT WHERE EARNED

Lodging House's Heavy Register for Last Two Nights Is Thus Explained.

A reporter for THE SUN went to the Municipal Lodging House yesterday to flud out why on so comparatively mild a night as Saturday refuge was sought by homeless men and women in numbers usually drawn thither only on the coldest nights of winter. He got the impression that the cause does not lie in general or local "hard times"

It was discovered that railroad construction, especially in New Jersey and western New York, has stopped for the winter and in New York there is a sudden influx of men who have come here to hibernate. Many of them, having spent their wages near the spot where they were earned, reach the city penni-less and head directly for the Municipal Lodging House. Its fame as a warm and clean place where beds are comfort-able and good coffee and bread are to be had for the asking for a day or two is widespread among the country's wander-

ers.

This impression was partly confirmed by inspection of the lodging house regis-ter, wherein Frank Ambrose, an ex-sol-dier who served twenty years in the Sixth United States Infantry, records with infinite care the "pedigrees" of all the city's guests. At least a third of the Saturday night lodgers were regis-tered from towns where railroad work known to have ceased within a few

days.

The biggest night the Municipal Lodging House ever had was in February two years ago, when the mercury was close to zero. On the books that night were 1.317 names. The number on Saturday night was 1.171, within 146 of the record. The lodging house, big as it is, could only accommodate 638 of these—587 men, twenty-eight women, sixteen 587 men, twenty-eight women, sixteen boys and seven girls. Four handred and forty applicants who lined up in East Twenty-fifth street after the house was full were taken to the Charities Depart-ment pier and the Lowell, a department locat. Twenty-two of them were boys. On Friday night the whole number of appli-

cants was 440.
Mr. Ambrose suggested that what he

Mr. Ambrose suggested that what he called the nationalities of the Saturday alght guests would be interesting to Turs Sun's readers. The number that replied "United States" to a question as to birtholace was 576; Ireland, 213; Germany, 2; England, 52; Scotland, 32; Austria. 30; France, 6; Russia, 53; Sweden, 6; Norway, 5; Switzerland, 6; Canada, 8; Italy, 20. Spain and other countries represented had only one apiece.

At 2 o'clock yesterday afternoon the first applicant for Sunday night shelter appeared. It was a woman. She was told to come back at 6 o'clock, for the doors are closed until that hour. She had been drinking and her admission seemed doubtful, for at least temporary sobriety is required. However, she set herself in a doorway and was hugging her knees and slumbering hopefully when knees and slumbering hopefully when fell.

Frank Persons, director of general work of the Charity Organization Society, said last night that at the offices of his society there has been no sudden increase of applications for relief corresponding to the siege of the Municipal Lodging House.

A taxicab owned by an independent was lined up yesterday afternoon in front of the Hotel Belmont. Within the car a vase held a little bunch of flowers and everything was neat and clean. The driver, a smooth faced, intelligent chap, was asked how the new taxicab ordinance affected his business.

"It's been bully for us," he said. "and if too many taxicabs do not get into the business I feel sure we will do finely. We

Saya Drivers Are More Reliable. | incline to the pelice t Knabe committed suicide.

"There is another thing that most people overlook," continued the driver, after he had driven his cab ahead two spaces and was the next in line for a passenger. "The independent taxis have better and more reliable drivers than the big companies. You see politicians send many men to the big companies for jobs and those men, resardless of their worth, are often chosen. With us it is different. The man who owns this cab has one other. He hasn't much money and he is not willing to trust his car to a man whom he does not know as a careful, honest driver. My employer gave me \$25 to work for him and when I saw that was too much I told him I would be will-say to the stand in the stand in the same tempt to show that Dr. Knabe's practice had not been profitable and that she was taken to the next of the case.
